Lights, camera. . . truly effective self-promotion

Online video is the most powerful means of business self-promotion ever known, and if you are not using it, you are not as profitable as you could be.

It does not matter what you are selling, or if your business is focused on a product or service. Video is the only means by which you can simultaneously include active content, text, voiceover, graphics, animation, and testimonials.

Video now accounts for about 85% of the bandwidth of the Internet.

- There are 28 million digital viewers in Canada alone in 2022.
- 86% of businesses use video as a marketing tool.
- 88% of people would like to see more videos from brands in 2022/23.
- 54% of viewers watch a video all the way to the end.
- 87% of marketers say video provided a positive return on investment

Using either greenscreen or a white wall painted with coloured light, our crew will work with a representative of your business to produce ten one-minute promotional videos. The videos will be recorded as a group and will be edited within a week. We offer 4K recording, professional lighting, higher than industry standard audio, and a teleprompter so our guests can read content while looking at the camera. If desired, we can also arrange for a talent coach.

Call our studio at 705-828-5605 or our Producer at 416-996-2786.
